Yunokawa

Yunokawa Onsen is southern Hokkaido's largest hot spring resort. Spring water has been used there since Hokkaido's early times, and legend has it that a young lord of the Matsumae Domain bathed in the hot spring for medical purposes in 1653. Hakodate is home to many sightseeing spots, including Mt. Hakodate with its beautiful night views, streets with a foreign atmosphere at the foot of the mountain, Goryokaku, which is well known as the site of the Hakodate War, and Cape Tachimachi, where Takuboku Ishikawa's gravestone is located. Yunokawa Onsen is a resort area that includes the Citizen Hall, Hakodate Arena and Tropical Garden, with the Trappistine Convent, the scenic Kosetsuen garden, golf courses and the airport in the surrounding area.

Hotel/Inn Name	Inquiries	Number of rooms
